

## **4/17/23 – Recitation 14, Team 6**

**Scribe: Mitchell Rheins**

- **Discussed this week's release notes**
  - Each member discussed points of what we have done so far and how this will contribute to this week release notes
    - These include our functional login, register, and our alpha annotation feature
- **API onto the frontend**
  - Discussed how we were going to use an API to create our book page organization
  - Went over how the annotations are going to associated with books and class notes
- **What are we going to do this week:**
  - We will all collaborate on getting backend feature done and start different database components
    - With databases finished, it enables us to finish on one of our main components, the final book annotation feature, along with class notes
  - Finish up initial test cases
  - Finish up release notes for recent commits
